

Medicine Hat Gas City Petroleum Show, Medicine Hat, Alberta, May 11/12, 2010

Come see us at booth #1516.

Need Radio-on-a-Stick? Want to know what it is and how it can help...

- Does your company currently use wireless radios for wellsite, pipeline, environmental, or tank monitoring applications?
- Are you interested in learning about how to reduce the cost and hassle of using solar cell systems in these applications??
- Do you want to learn more about our wireless radio solutions which run on standard D-cell alkaline batteries? (While delivering superior performance)
- Are you curious how your company can benefit from low power long range Batlan radio technology?
- Are you curious about the new possibilities for remote data and monitoring, such as battery-powered video and intrusion detection?

....then come see us at booth #1516 and we'd be pleased to grab a coffee and tell you about our radio products and show you a live demo.
